AUTOMOTIVE GREASE PIT

This regulation establishes the procedures and responsibilities regarding the use of the automotive grease pit.

1. Policy. The provisions of this regulation are applicable to all squadron personnel, and will be complied with by individuals using the facility.

2. Responsibilities and Procedures.

a. A ground-level concrete automotive grease pit is available for use by all squadron personnel.

b. The pit is located approximately 300 feet Northwest of the intersection of 3rd Street and "B" Street on "B" Street (Northwest of the antenna that has a triangle picket fence built around the ground connections).

c. There is no equipment in place at this facility; therefore, it will be the responsibility of the individual to bring his own tools and check out buckets for changing oil, etc.

d. Individuals will thoroughly clean up the area after using the pit. Used oil will be disposed of by pouring on the ground away from the pit area. Under no circumstance will the used oil be poured on the concrete slabs in the pit area.

e. This is the only place within the squadron area that will be used for changing oil in motor vehicles.

R. A. SCHAMBER, Colonel, USAF
Commander
